

Dear Fellow Republican:

As you may know, the IFRW is the largest political volunteer organization in the State of Illinois and we provide our services at the grassroots level. Many of you know members of IFRW in your districts as we work hard all over the state to help candidates and elected officials with their campaigns and on-going legislative work.

Your contributions helped us achieve all of our goals for 2009. Those goals were to help college Republicans develop the skills to participate in the democratic process; host a candidates night; recognize Mary Jo Arndt for her decades of political activism; and award a \$1000 scholarship to a member returning to college, to name a few.

Our goals for 2010 include working with State and National Committees to win 2010 elections; hosting a legislative day for our members; modernizing our website with links to candidate websites, member clubs, and other various other Republican sites; sponsoring another candidates forum after the Primary; and assisting college Republicans by getting them more involved in the election process. Sustaining Memberships play a key role in supporting these projects, and we would welcome your continued Sustaining Membership during 2010. All Sustaining Members are proudly acknowledged in IFRW publications, on our website and at meetings.

We note your support of the IFRW and its Republican efforts on our website, as well as in our programs and at our conferences. Please indicate your level of interest and return with your contribution to IFRW-Sustaining Membership, c/o Joyce Hundhausen, President, 366 Trailside Court, Carol Stream, IL, 60188.

YES! I WANT TO BECOME A SUSTAINING MEMBER!

_____	\$1,500 Point of Light Sustainer	_____	\$100 Super Sustainer
